

2020 Product Updates: What's New For You

The latest Emtrain solutions and features - now available

Your workforce doesn't expect to get any value from compliance training. It's just a one and done, check the box off your list task, then **set a reminder for next year to do it all over again**. However, if you turn compliance training into a program that changes behavior while generating diagnostic information about core situational dynamics that you can measure and improve, then you've achieved value for your employees and your company.

How will Emtrain support and empower you in 2020?

The tools and resources you need to transform compliance training into an effective culture program focused on the health of your workforce and behavior change.

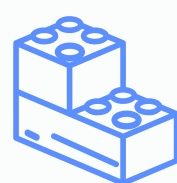

Improved User Experience

- A mobile-first user experience to engage your “on the go” employees.
- Simple and intuitive content editing tools empower you to personalize our content to meet your specific messaging and workforce needs.

Benchmarked Culture Analytics

- Actionable reporting on your company culture in the areas of respect, bias, and ethics.
- No survey fatigue - get rich feedback on employee perspectives without launching yet-another-survey.
- Benchmark your workplace culture against our global baseline and (coming in 2020) companies like yours.
- The Emtrain Workplace Culture Report - an analysis of the fundamental building blocks of workplace culture based on the perspectives of 30,000+ employees.

Modular Content

- Building-blocks-based content that makes it easy to configure programs to meet the unique needs of your employees and your culture.
- New microlessons that meet today and tomorrow's controversial topics.

Extensive Culture Library to Use in Conjunction

- With a pulse survey.
- As a component of a culture initiative.
- In lieu of a course on a particular course on a particular topic.
